

## Program Composition

Interns experience a variety of dietetics practice settings when rotating through the clinical, community and food service sectors. Preceptors provide a rich and diverse educational experience as interns gain the necessary competencies to earn a verification statement. As the BHS Internship is based out of a hospital system most rotations take place in the hospital setting but community and outpatient settings offer an array of experiences throughout the city of San Antonio. A breakdown of rotations is listed below:

8 weeks General Clinical Nutrition with a cardiac health emphasis  
4 weeks ICU  
4 weeks Clinical Staff Relief  
2 weeks Renal Dialysis at Davita Dialysis  
2 weeks NICU/Pediatrics at North Central Baptist Children's Hospital  
1 week School Foodservice at North East San Antonio ISD  
6 weeks Management/ Hospital Foodservice  
1 week WIC  
2 weeks HEB  
2 weeks CHEF

## Locations

General Clinical Nutrition, ICU, Clinical Staff Relief and Hospital Foodservice/ Management will all take place at Baptist Health System hospitals. Students can expect to rotate at three or four of the following hospitals:

Baptist Medical Center  
St Luke's Baptist  
North East Baptist  
Mission Trail Baptist  
Resolute Health Hospital
